EDUCATION

2022 - 2024
UMT ,LAHORE

Bachelor in Data Science

2023 - 2024
GOOGLE

- Full Stack Development

SKILLS

- Data Analytics
- Data Visualization
- Machine Learning
- Marketing
- Event Management
- Critical Thinking

LANGUAGES

- English
- Urdu
- Hindi
- German

PROFILE

I'm an emerging Data Analyst with two years of hands-on experience as a data science student at UMT, renowned for its top-tier computer science programs and research initiatives. I excel at pinpointing efficiencies and addressing issues in data streams, and I'm skilled at communicating project needs. I handle data from diverse sources like Access, SQL, and Excel, and I thrive on synthesizing quantitative information. My ability to effectively interact within an office environment complements my technical expertise

WORK EXPERIENCE

Software Developer & Programmer
2020-2024

- Developed a hotel management system in C++ during my first semester, focusing on core programming concepts and practical applications in C++.

- Created a digital watch system using Digital Logic Design (DLD) in the second semester, gaining experience in logic circuits and hardware interaction.

- Worked on various OOP (Object-Oriented Programming) and DSA (Data Structures and Algorithms) projects, reinforcing knowledge in software architecture and efficient coding practices.

- Built an NLP-based skin disease prediction model, utilizing Natural Language Processing techniques for accurate diagnosis prediction and model training to enhance precision and usability.
